

Bioinformatics and Genomics

Lectures on sequence search, short read alignment, RNASeq, variant calling, genomic ranges, protein domains, phylogenetics, orthology, microbiome analysis and genome browsers.

Lectures

1. [Basics and BLAST PDF](#)
2. [Workshop - parsing data PDF](#)
3. [Short Reads PDF](#)
4. [Genomic Data Ranges PDF](#)
5. [RNASeq PDF](#)
6. [Variation and SNPs PDF](#)
7. [Protein domains PDF](#) - also see the [Domains lecture slides](#)
8. [Orthology PDF](#)
9. [Phylogeny and Gene Families PDF](#)
10. [Sequence Evolution and Statistics PDF](#)
11. [Microbiome PDF](#)
12. [Genome Browsers PDF](#)
